CARE CLINIC

Welcome to Summit Cares

The Summit Community Care Clinic strives to provide quality healthcare with a progressive approach. We might do a few things differently than you're used to, but we guarantee it's all to serve our patients better. If you have any questions or if you would like to learn more, please contact us.

What does the Summit Cares Plan include?

Our Integrated Care Model

Your first appointment might be a little longer.

We believe that for a person to reach their optimum well-being, you must treat their mind, body and soul. This model has driven us to include behavioral and oral health into our available services. When a patient walks in for any type of visit, they are asked questions about mood and substance use. If a patient presents with risk, a behavioral health provider or Health Educator meets them right there during their appointment.

- Ordinary and routine care of the nature of a visit to the doctor's office
- Behavioral health services
- Chronic care management
- Annual physicals
- Routine annual woman's health exams
- Sore throats/ears/headache
- Strains/sprains/musculoskeletal problems
- Non-specific abdominal pain
- Cough & Sinus
- Rashes
- Acute urinary complaints
- Personal hygiene related problems
- Acute injuries / acute routine office procedures
- Minor surgical procedures, such as sutures for laceration treatment
- Ordered laboratory tests
- Healthy lifestyle coaching with Health Educators
- Comprehensive Annual Dental Exam/X-rays
- One Dental cleaning

\$100/Individual per month

Additional Services That May Be New To You

Patient Portal

The Patient Portal is a secure web-based healthcare application that enables you to communicate with your health care providers and connects you directly to your Electronic Health Record.

Visit SummitClinic.org/Patient-Portal to learn more.

Behavioral Health Services

Short-term and long-term individual and couples therapy services for children, adolescents and adults. Counseling for all areas of mental health and wellness. Please call Cassie for more detailed information.

Health Coaching

Summit Cares also includes Health Coaching to manage chronic illness, weight management, and stress management. Simply make an appointment.

School Based Health Centers

Summit School Based Health Center provides quality primary care, oral health and behavioral health services to Summit School District students, families of students, and staff. Call 970-668-4040 for Appointments available at Dillon Valley Elementary, Silverthorne Elementary, Summit Middle School, Summit High School, Park County High School and Lake County Schools. School Based Health Centers bring the doctor's office, dental office and behavioral health office to your school.

Dental Health Services

A comprehensive Dental Exam/ X-rays and one dental cleaning is included in Summit Cares, however we do take most insurances and offer a sliding discount scale, dependent on income, at our dental offices, upstairs from the clinic.

Team-Based Care: Work in Partnership With Your Healthcare Provider

What is it?

Team-Based care is a way for you and your doctor and others in your doctor's office to work as a team to care for you. In team-based care, an entire team works together with you and your family. The care team may include a doctor or nurse practitioner, registered nurse, care team coordinator, scheduler, health educator, and YOU.

How will it help you?

- Form better relationships with everyone at the doctor's office who has a role in your care.
- Make the most of the time you spend with your doctor, really discussing your issues, diagnosis, and treatment.

These things can help you get better results and prevent mistakes in your care!
